

Remote Workforce Solutions

With so much incredible technology available to connect us, it's easier than ever to work remotely. If you are working on establishing a work from home policy at your company, robust and secure collaboration technology for a remote workforce is a prerequisite. Depending on your unique business needs, one or more solution could be necessary for a remote worker policy.

Customer focus is the heart of Freeit, and we're here to help you evaluate and select the best solution for your business.

*Requires a properly built-out AWS or Azure environment. Freeit can deploy a Landing Zone if needed.
